

Change-Pro[®] Suite WXL^{*}

Product Datasheet

Overview

Do you find yourself using several software programs to work with your documents? Have you used one program to do redlining, another to remove metadata, another to convert the document to PDF and yet another to convert a PDF document back to Microsoft[®] Word[®]?

Whether you are a lawyer or finance professional or engaged in any occupation where you work with Microsoft[®] Word or Excel[®] documents and PDF, Change-Pro[®] **Suite** by LITÉRA[®] is an indispensable tool that will save hours of time and increase your productivity.

The Product

As a complement to Microsoft[®] Word and Excel, Change-Pro Suite allows you to:

- **Compare** Compare two versions of any Word or Excel document (any language including Chinese). For Excel, this includes multiple worksheets and ability to view both value changes and formula changes in an intuitive format.
Now also Compare Compound documents (WORD with EXCEL embedded)*
- **Remove Metadata** Metadata removal from Word, Excel, PowerPoint and PDF documents and images (jpeg, tiff, png etc.).
- **Convert and Edit PDFs** - Convert all MS Office documents and Web pages/HTML to PDF and back to WORD fast and accurately. Edit PDF documents with features such as highlighting, redaction, notes, labels, minor text alterations, add MS WORD or Excel sheets to the PDF document and more...
- **Capture and edit images** - Edit photos and images. Screen capture full screen or select regions or objects.

Change-Pro[®] **Suite** is a powerful multi-featured product suite allowing users to do many of the everyday "Document Change Management" functions in one product with useful integration with MS Word, Outlook[®], Excel as well as popular DMS.

Change-Pro for Excel is backed by a cutting-edge technology company that has been dedicated to delivering document change management and outstanding service to customers and to solving work flow problems for 5 years.

System Requirements

Product Datasheet

Product features

■ **Redlining :**

Change-Pro Suite shows a high level of accuracy in detecting changes in Microsoft Word and Excel spreadsheets. **Compare English, Chinese or any language!**

Newsflash: v.5 now offers Compound document comparisons* (Word with Excel Embedded) and Office 2007 compatability!

■ **Metadata Sweeper : Single or Batch Sweeping**

Change-Pro Suite allows metadata removal from all MS Office and PDF documents as well as all common image types (jpeg, png, tiff etc.).

■ **MS Office to PDF :**

Change-Pro Suite is extremely fast, with strong compression in producing high-resolution PDF documents.

■ **PDF to MS Word or Excel :**

When you have a large PDF document to edit, you can convert it with one click to MS Word or Excel and edit in this friendly format. (*Original document must be a Word or Excel document)

■ **PDF Editor :**

Highlight or redact text, add notes, labels or pictures and signature. Edit or move text, insert or delete text, append or split documents, fill forms.

■ **Image Editor :**

Whether you are inserting picture or images and need to modify, draw attention to portions of the image, the easy-to-use image editor provides full editing functionality.

■ **Screen Capture :**

Capture desktop, active window, defined region, defined object or a free-form section and have them auto-saved to a folder for renaming later.

■ **Integration with MS Office :**

Auto or prompted removal of metadata whenever you attach a MS Office document to an email in Outlook.

E-mail integration with Outlook to allow one-click comparison of attachments received.

Right click on any MS Office document to either compare, convert to PDF, or remove metadata.

■ **Integration with DMS (Document Management Systems) :**

Change-Pro Suite offers out-of-the-box integration for all Hummingbird, Interwoven and Worldox products.
